NBT SPICES

Turmeric is one of the most widely used spices in the Indian subcontinent, with a history dating back at least 4,500 years. In its raw form, it is used in Ayurvedic medicine, food, and dyeing processes, while in its powdered form, it is used in cooking, rituals, decoration, and festivals. It is an antibacterial powder that can be applied to open wounds.

Turmeric contains curcumin – an anti-cancer agent with many other powerful health benefits.

Organic products in India contain turmeric with 2 to 5% curcumin.

Kisan Agro is one of the leading turmeric exporters in India. We are a trusted manufacturer and supplier of organic turmeric powder worldwide.

NBT SPICES

Pink Salt

The speciality of pink salt (Himalayan pink salt) is that it is less processed than normal salt and contains 84 types of minerals, which help in hydration, bone health (calcium, magnesium), digestion and blood pressure control. It also tastes better and is considered a healthy option, but it should be consumed in limited quantities as the minerals are present in very small quantities. 100% Natural

NBT SPICES

White Salt

The speciality of table salt is that it is fortified with iodine, which is essential for thyroid and brain development of children, and it is easily available everywhere, but most of the white salt is processed, due to which some of the nutrients present in it are removed and anti-caking agents are also added to it, hence it should be consumed in balanced quantity and excessive consumption can cause problems like high blood pressure.
